About

Morton's The Steakhouse is giving fans of Grammy-nominated singer/songwriter Jewel, the opportunity to be a part of an interactive concert live from Pittsburgh where Jewel will be performing songs from her latest album due out on June 8th. The audience will choose the songs they want her to perform, ask questions live on the air, and even be featured live themselves through the use of HD cameras, all while enjoying an amazing three-course Morton's meal. The concert will be from 8-11pm and tickets are \$100 which includes an autographed copy of her new release CD and a three-course dinner (\$92.50 if they don't want the autographed CD).
